

PROFESSIONAL PROJECTOR MOUNT

PROFESSIONAL is a series of universal mounts for projectors. Modern design and simple mounting makes the mounts a nice and affordable alternative.

MATERIAL/COLOUR

The metalparts are made of steel and aluminum. The colour is silver. The plastic parts are black and made of ABS-plastic.

UNIVERSAL MOUNT

The mounts are universal and fits most of the projectors on the market, except CRT-projectors.

CEILING MOUNTS

Fasten to the ceiling with the attached screws. Use the right mounting material depending on the foundation.

LOADING CAPACITY

The mounts are tested for weights up to 15 kg.

SECURITY

These mounts are extendable and provided with a security system that prevents the extension arm from being taken apart. This function prevents the projector from falling down and it also causes a delay for the thief.

CABLE MANAGEMENT

On these mounts there is an integrated cable management. You can hide your cables to/from the projector in order to have a nice and clean installation.

ATTACHING THE PROJECTOR

The most common screws that are used to attach the projector to the mount are included in the accessory pack (M3, M4, M5 and M6 screws).

ADJUSTABLE CEILING PLATTER

This mount has a adjustable ceiling platter wich allows you to mount it to a sloping ceiling, can be adjusted up to 45 degrees.

SWIVEL ADJUSTMENT

Swivel is the term for how many degrees you can turn the projector around it's "own" axle.

HORIZONTAL/VERTICAL TILT

Tilt is the term for how much you can adjust the projector sideways and up/down.

TECHNICAL SPECIFICATION PROFESSIONAL PROJECTOR MOUNT

Article number	Colour	Length arm (mm)	Extention (mm)	Swivel (deg)	Horizontal Vertical (deg)	Ceiling tilt (deg)	Load Capac. (kg)	Net/Gross per unit (kg)	L x W x H per unit (mm)	Net/Gross box (kg)	L x W x H box/10 pcs (mm)
